

*Il Presidente
del Consiglio dei Ministri*

Rome, December 10th, 2018

Dear President,

on the occasion of the fourth edition of the Italy Corporate Governance Conference, I would like to convey my greetings to you, the Authorities and all the guests attending.

Due to unexpected and mandatory institutional commitments, unfortunately I will not be able to attend today's Conference.

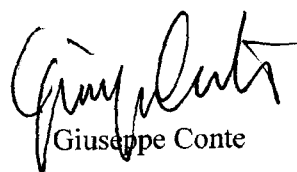

However, I would like to express my deep appreciation to the Corporate Governance Committee for organizing this important engagement opportunity for the main actors of an increasingly strategic sector for the Italian economy.

The development of the capital market is essential for the growth of our companies and for attracting international institutional investors in Italy. Corporate Governance practices adopted by the Italian companies play a key role in establishing and protecting confidence and in encouraging access to capital markets. In this context, I recognize the important leading function of the Italian Corporate Governance Committee in promoting best practices and their effective implementation.

The Italian Government supports these efforts as they can contribute to a more sustainable economic growth.

I therefore would like to thank Assogestioni, Assonime, OECD and the Italian Stock Exchange for organizing these two days of meetings and discussions out of which, I am certain, significant ideas and remarks will emerge.

I seize the opportunity to send you and all the participants to the conference my best wishes.

Giuseppe Conte

Mrs. Patrizia Grieco
Chairman of Enel
